Re: Essential Businesses – Attorneys and Law Firms

As you may know, yesterday the Mayor signed an Executive Order directing nonessential businesses to close beginning Sunday, March 29, at 10:00 p.m. The Order included a list of nonessential businesses which are required to close. Attorneys and law firms are **not** included in that list, and are not required to close by the Order. However, all businesses are required to continue to observe good social distancing practices, including maintaining a consistent six foot distance between individuals and instituting sanitation plans in accordance with CDC guidelines.
