

Solaris is getting an upgrade.

The Subrogation On-Line Attorney Referral Information Service (SOLARIS) attorneys know and love just got even better.

solarisplus

Introducing Solaris Plus – Subrogation Streamlined

Inspired by your feedback and our vision of delivering a fully online casualty solution, we've revamped our Solaris web portal into a streamlined system that allows you to create and manage your subrogation cases from start to finish.

Through Solaris Plus, you can upload, generate and submit relevant case documentation, including HIPAA-compliant medical authorizations and lien documents, all through a single intuitive platform.

- Create a new case
- Generate lien documents
- Submit a compromise request
- View real-time case status through your personalized dashboard
- Generate and submit a medical authorization quickly and securely through DocuSign
- Accurately value claims
- Submit claim disputes
- Access case information 24/7
- Readily identify outstanding items needed to move the case forward

Case Management on Your Terms

Solaris Plus is transforming subrogation by empowering attorneys with the ability to create, manage and settle cases without manual intervention and resultant delays. No more follow-up calls. No more wondering whether documents or requests have been received. Just transparency, efficiency and ease of use.

Questions? We're Here to Help

We've worked hard to insure a smooth transition and optimal experience for our users as we upgrade to Solaris Plus. If you have any questions as you're navigating the system, give us a call at 855.676.8896 or email us at solarisplus@hms.com and we'll guide you through the process!
